

ACE Marine

On course to serve your needs worldwide

Transportation Risk Management

Every consignment of goods carries its own individual risk, whether by its nature, the type of transportation used or its destination. The safe delivery of goods is vital for our clients in both monetary and reputational terms.

ACE's Transportation Risk Management team is based worldwide and has extensive experience in the shipment of all manner of goods including:

- Raw materials and commodities
- Food products and pharmaceuticals
- Manufactured and consumer goods
- Equipment for large infrastructure projects

With many years experience in the transport industry, our Transportation Risk Managers have been recruited from backgrounds which include seafaring, logistics, heavy transport, warehousing, loss adjusting and quality control.

As part of the underwriting team, our Transportation Risk Managers provide advice and intelligence that allows ACE to fully assess and rate a risk. This knowledge is available to our client base and can be supplemented with reviews of shipping operations and client visits.

Services that we provide to assist clients include:

- | | |
|--------------------------------------|---|
| Packaging review | Assessing the suitability of packing of goods for shipment. |
| Handling stowage and securing | Pre shipment/load/discharge surveys on high value cargoes. |
| Warehouse suitability | Inspections to look primarily at risk of fire and theft but can include inventory management. |
| Sensitive cargoes | Guidance for perishable, time and temperature sensitive cargoes such as pharmaceuticals and food. |
| Supply chain | Review of carriers contracts and suggested improvements to the supply chain to ensure good business continuity. |
| Education and training | Seminars on such topics as cargo security, cold chain, shipment of out of gauge cargo. |
| Global network | Use of information and intelligence available through our Global Network in respect of port and country conditions, cargo theft hot spots and other topics of interest to shippers. |
